

# FINDING YOUR RING SIZE

## If you already have a fitting ring.

1. Print this page at 100%. DO NOT apply any scaling to the print.

2. Place an existing ring over the template circles ensuring that you can see the whole circle underneath the ring when you look through the hole in the ring.

3. Note your size.

## If you do not have a ring...

1. Cut a piece of paper in to a strip and wrap it around your ringer in the appropriate place.
2. When the paper is fitting snugly, tape it in to place and slide it off of your finger.
3. Simply take a ruler and measure the Diameter (the width) from one edge to the other edge of the paper.
4. Use the chart to match the Diameter to your result.

This ring size chart is presented in British finger size letters indicated in the circles. The metric Diameter and Circumference measurements are listed below each ring size.

All our rings are available to order in any size between G and Z. As we make each ring individually we are able to produce them in half sizes also.

### KEY

- D.** Diameter
- C.** Circumference
